

*Built on partnership.
Powered by purpose.*

Progress isn't a promise. It's a result of purposeful action.

At Kimberly-Clark Professional™, that purposeful action is driven by a system where sustainability is built into everything we do. From the energy that powers our facilities to the materials we use, every choice is made to reduce impact and drive meaningful change.

Our commitment is already delivering the results:

40.9%

GHG emissions cut

5,000

**solar panels installed. 3,000* tons
of indirect CO₂ emissions avoided**

52.8%

**water consumption reduction
at water-stressed sites.***

90%

**of our tissue fiber is sourced
from environmentally preferred sources.**

*Meaningful progress doesn't wait.
It starts now. And it moves forward, together.*

Disclaimers:

1. GHG emissions (Scopes 1 and 2) reduction against 50% goal from 2015 base year. Source: KCP Sustainability Report 2023-2024
2. Karawang facility, *Approx per year. [*Disclaimer: Data taken from Kimberly Clark Professional Sustainability Report 2023.
3. Against 50% goal from 2015 base year. In June 2023, Kimberly-Clark sold a facility in Latin America that was a water-stress site. Selling the facility will reduce Kimberly-Clark's total base year water footprint in water-stressed regions by 456 Megaliters. In fiscal year 2023 Kimberly-Clark's total water footprint reduction was 10.7% compared to 2022 for our mills in water-stressed areas.
4. Environmentally preferred fibers include FSC certified virgin fiber, recycled fiber, and sustainable alternative non-wood fiber. Source: KCP Sustainability Report 2023-2024
