

AQUARIUS* Phase 3 7018 Instructions

Oct 13

Exceptional
Workplaces*

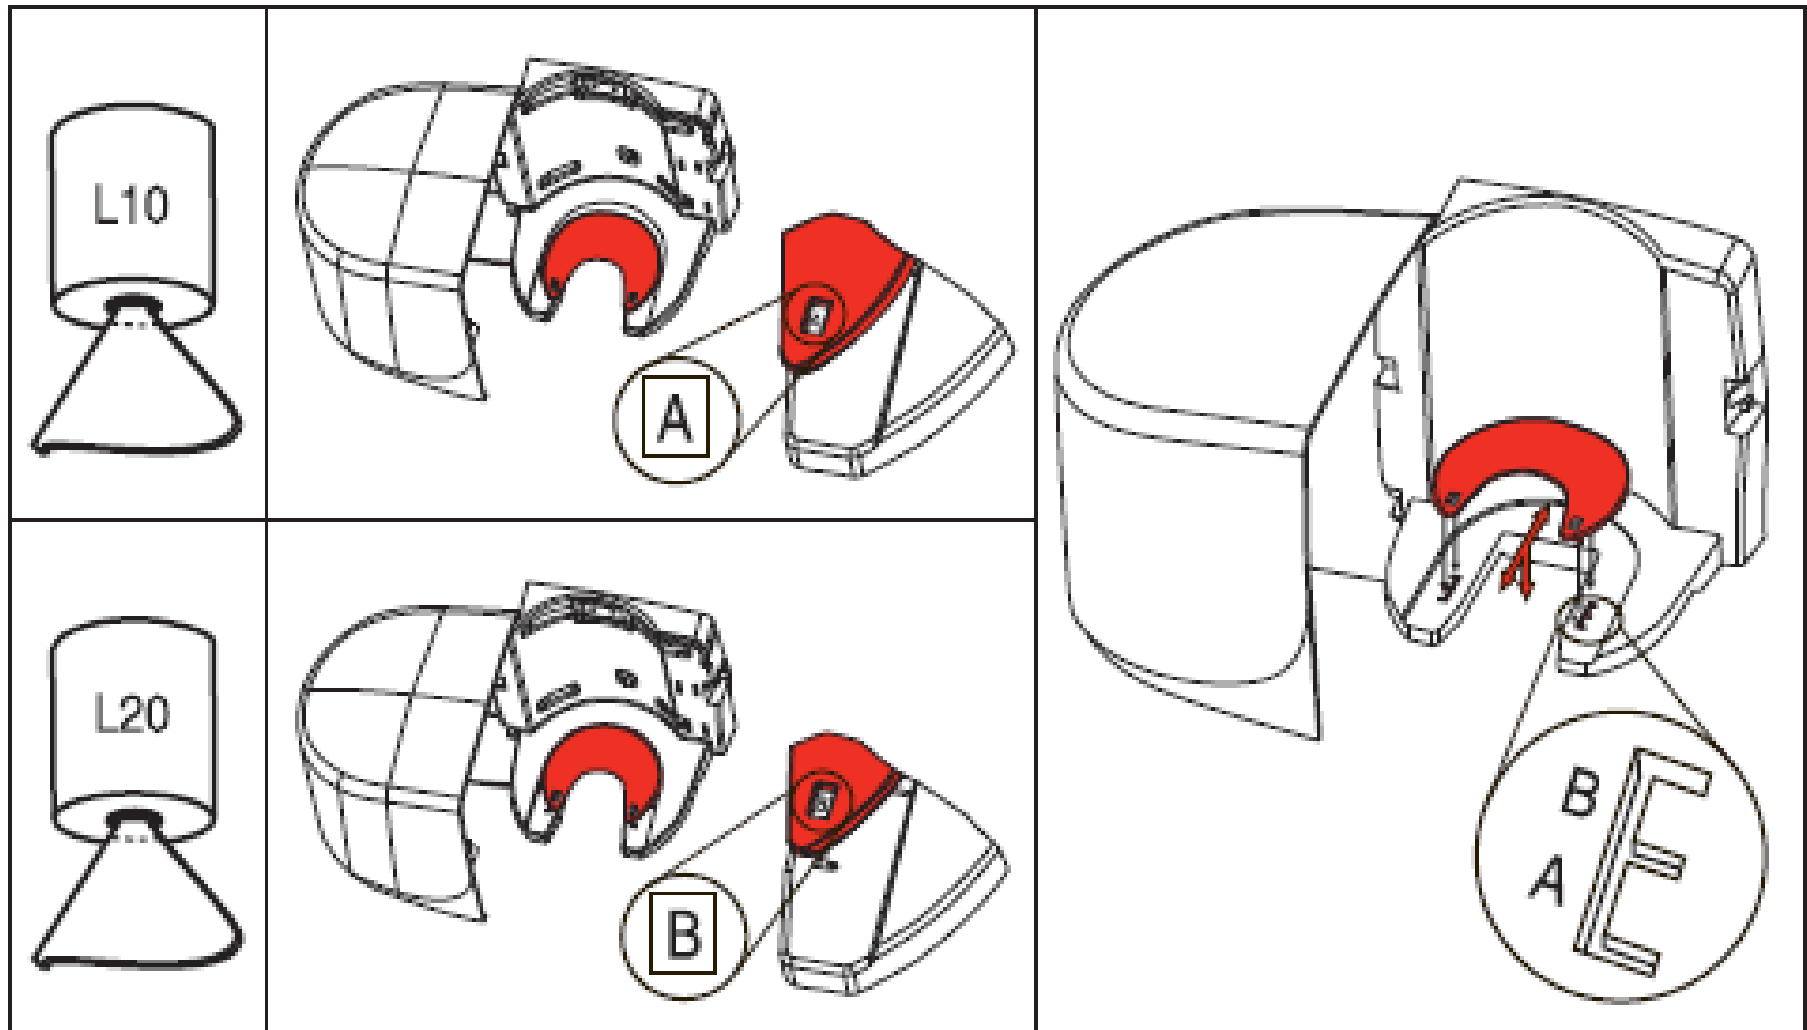

Aquarius* Roll Control: 7018

- Roll control can dispense all our roll control wipers: both L10 and L20
- We need two different apertures positions to allow this
- No Installation. Default position is for L10 wipers (largest volume)
- L10 customers take no action
- L20 customers must change the aperture from position A to B,
- By clicking aperture out of position, and into B position

- **Instructions for use:**
 - Sticker in dispenser to show use
 - End user instructions for use: Video
 - Table created: “Which position for which wiper”

Instruction Guide: 7018

Instruction Guide: 7018

7018: Plate position

Table below denotes which position
Centrefeed dispenser plate should be in

FP Code	Description	Plate Position
