

Kimberly-Clark Professional® Automatic Counter Mount Soap Dispenser, 1.5 Liter

- Made of ABS plastic with chrome-plated dispensing head
- Dispenses a one-shot volume of skin cleanser when activated by placing hand under the dispensing head
- SMART SHOT DISPENSING TECHNOLOGY* delivers a perfect foam shot every time
- Accommodates a sealed 1.5-liter skin cleanser refill that easily snaps into place
- Each refill includes a tube that runs through the dispensing head so that the skin cleanser never contacts any of the dispensing parts, eliminating build up and corrosion
- Does not require soaking or system purging
- Low/empty skin cleanser warning LED and low/dead battery warning LED
- Powered by 4 D-Cell Batteries (included) or AC Adapter/AC Splitter (not included) or 24V adapter (not included)
- Battery pack installs into remote retainer with a 36" interconnection cable
- Retainer is secured by the hardware provided
- Opposing IR sensor on the dispensing head helps prevent unwanted dispensing when washing hands in sink
- Soap dispensing module provides six mounting positions for greater flexibility during installation
- One per case
