Certification Key

Ensures wood products are FSC® certified from sustainable, responsibly managed forests. (See page 6 for details)

Products are manufactured at Millicent Mill, Millicent, South Australia on Boandik Country. Supporting local manufacturing and communities.

Products are made with AIRFLEX® Technology.

Products are made with HYDROKNIT® Technology.

Products certified as FZP (Food Zone Primary) items are suitable for use in the food zone and are suitable for short term contact with food. Products certified FZS (Food Zone Secondary) items are suitable for touching food contact surfaces but are not expected to touch food during normal conditions of use. Products certified as SSZ (Splash or Spill Zone) items are suitable for use in food handling areas such as kitchens, production areas and processing areas, but are not suitable for coming directly into contact with food or items that will touch food.

Creating a **better** tomorrow

Put your confidence in our sustainable solutions.

We set ambitious sustainability goals in key priority areas which enable us to have a lasting positive impact around the world. Our priorities and goals are informed by who we serve, what we do, and how we do it. We work together to foster innovative ideas and pursue longer-term change while striving to create social, environmental, and financial value.

Products marked with this symbol have FSC® certifications from manufacturing facilities around the world:

Kleenex[®]
BRAND

Scott[®]
brand

Over **100 years** of hand towel expertise, all in one place.

We promise to deliver you market leading solutions that reduce our environmental impact, and help you reduce yours.

Kimberly-Clark Professional™ is proud to say that 100% of the fibre used in our Australian made tissue and towel products is sourced from FSC® Certified or FSC® Controlled or Reclaimed Wood sources.

At **Kimberly-Clark Professional™**, we understand our customers and the industries in which they work.

Whatever your need, we've got it covered.

Let us walk you through it.

The superior choice.

Comfort, softness and drying performance.
The original and still the best.

The practical choice.

Great performance and great cost in use. **Scott®** offers extra value for those high-use areas.

Folded or rolled?

Typically our hand towels come in these two types.

Folded Hand Towels are your best choice for comfort and hygiene.

Rolled Hand Towels are best for busy spaces full of busy people.

Optimum Towel Systems

Optimum Folded Towel system provides a larger paper towel with strength and absorbency.

The majority of KLEENEX® and SCOTT® Optimum Towels are FSC® Certified.

Our high capacity lockable dispensers are easy to use and efficient for your cleaning staff.

KLEENEX®

Scott® Rolled Hand Towels System

HYGIENIC & EFFICIENT HAND DRYING SYSTEM

Image shown is for illustration purpose only

Designed to elevate hygiene without compromising on **efficiency**.

Hygiene & Care

Effective hand drying experience

Airflex™ technology offers better absorbency¹ and remain strong when wet.

Hygienic dispensing

Controlled ONE-sheet dispensing system.

Helps reduce cross contamination

Paper towels can remove up to 77% of bacteria that remains on hands after washing²

'No dirt' trap design of dispenser.

Confidence & Efficiency

Trusted brand

Quality assurance through visible branding³.

Reduce refill frequency

High capacity⁴ rolled towels.

Intuitive design

Large viewing window on Dispenser for easy refill assessment

Hidden lock on Dispenser to help reduce tampering & misuse.

Effective hand drying method recommended by WHO*, supported by Airflex™ technology for better absorbency⁵ and help reduce cross contamination.

1. Compared with conventional hand towels technology in market. 2. University of Westminster, "Changes in the number of different types of bacteria on the hands before and after drying using paper towel, continuous cloth roller towel, warm air dryer and jet air dryer" (2010). 3. KCP Global study done on branded towels in 2018: Brand Differentiation: Scott® Pattern Acceptability Study Report.. 4. Comparing KCP folded towels with KCP Hard rolled towels. 5. Compared with conventional hand towels technology in market.

*A Guide to the Implementation of the WHO Multimodal Hand Hygiene Improvement Strategy (Section II.1.1)

The new **WypAll**[®] portfolio structure

Putting your
business's needs
first in navigation

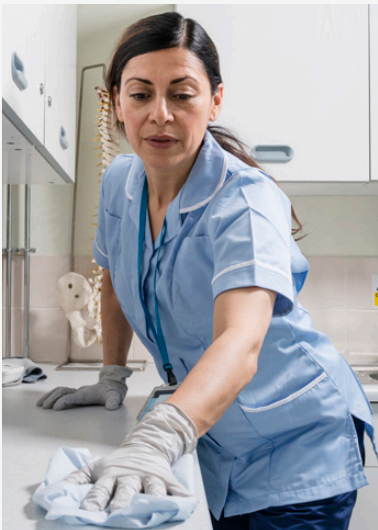

WYPALL[®]
BRAND

WypAll® Wipers Packaging

Simple Selection

Our solutions and the value we bring hasn't changed, but the way we've organized our products has. Our portfolio is now aligned to three distinct cleaning solutions to make selection easier and to provide you with task-specific options for every level of clean.

WypAll® CriticalClean™

When your clean is vital!

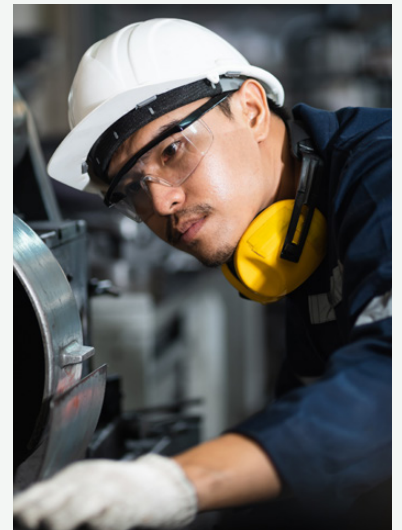

Helps reduce contamination risk with products that help clean, disinfect and sanitise.

WypAll® GeneralClean™

Efficiency you can count on!

Helps create a clean work environment with efficient – light to medium duty – general cleaning solutions.

WypAll® PowerClean™

Tackles the toughest tasks!

Designed to maximise performance while minimising time, effort and product waste.

WypAll® General Clean™

Efficiency you can count on

WypAll® GeneralClean™ products help create a clean work environment with efficient light to medium duty general cleaning solutions. Our absorbent products clean up liquids and debris, making work easier and faster.

WYPALL® REACH™ Centrefeed System

Features & Benefits

Designed to help prevent transmission of food borne bacteria caused by handling of exposed rolls during food preparation. Good for space restricted environments with a convenient wall mounted bracket for storage. Ideal for wiping up spills and drying hands. Cuts paper waste by 18%¹.

Reduces paper consumption by 18%¹.

Suitable for:

Food and hygiene applications. Service, retail and front of house.

1. Based on the Sapio Research August 2018. Actual consumption may vary depending on different circumstances.

What folded towel is that?...

How often are you left confused as to which towel to order so that it fits into the dispenser? This guide will help you identify the Kimberly-Clark product code and name of the towel you need.

Directions for use:

Place a **folded** sample of your current towel from the dispenser against the boxes below. The shape that best fits the towel will determine the towel product you require to ensure your dispenser works effectively. (**NOTE:** actual towel widths can vary by up to 1cm from those noted - this will not effect fit or performance in the dispenser.)

PLACE CORNER OF TOWEL AGAINST GREEN

On our Websites you can

Check out the site for regular product news updates.

Find PDFs of brochures and technical bulletins.

Find information on our environmental practices.

Find other information such as dispenser specifications and diagrams.

*Our "no quibble" performance guarantee, covering all Goods, assures you of trouble-free performance when used as directed in our recommended systems. The quality and consistency of our products allows us to offer a money back or replacement of stock guarantee for any performance troubles caused by, or defects in, our Goods for a period of 12 months from delivery.

At Kimberly-Clark we are confident that the products we recommend will improve your productivity, control costs, and enhance hygiene.

If, after a 60 day trial (or an agreed time), you find you have spent more on the recommended Kimberly-Clark system than your current safety, washroom, wiping or skincare system, we will reimburse the difference with Kimberly-Clark product (up to a maximum value of \$1000).
