## Certification Key

Ensures wood products are FSC® certified from sustainable, responsibly managed forests. (See page 6 for details)

Products are manufactured at Millicent Mill, Millicent, South Australia on Boandik Country. Supporting local manufacturing and communities.

Products are made with AIRFLEX® Technology.

Products are made with HYDROKNIT® Technology.

Products certified as FZP (Food Zone Primary) items are suitable for use in the food zone and are suitable for short term contact with food. Products certified FZS (Food Zone Secondary) items are suitable for touching food contact surfaces but are not expected to touch food during normal conditions of use. Products certified as SSZ (Splash or Spill Zone) items are suitable for use in food handling areas such as kitchens, production areas and processing areas, but are not suitable for coming directly into contact with food or items that will touch food.

**RECONCILIATION**  
ACTION PLAN

---

**INNOVATE**

Our purpose at Kimberly-Clark is to provide Better Care for a Better World through the products we make, the workplaces we create and the communities we serve.

Our vision for reconciliation in Australia is a system that ensures equal access to better health, hygiene, and well-being outcomes for Aboriginal and Torres Strait Islander peoples.

More broadly, Australia's reconciliation acknowledges our shared history and the contribution of First Nations peoples and their cultures to society, past, present, and future. It sees the adjustment of corporate and societal systems that increase opportunities for Aboriginal and Torres Strait Islander peoples.

Through this change, the nation can achieve equal levels of health, financial and life fulfillment that is deserved of by the whole population. We want to see a nation that is proud of its shared history, and united in its future.

In 2021, we started our Reconciliation Action Plan (RAP) journey, with the theme of our first plan 'Reflect' which outlined our commitment to progressing reconciliation in Australia. At the end of 2022, we have followed up with our second plan, themed 'Innovate'.

# Creating a **better** tomorrow

Put your confidence in our sustainable solutions.

We set ambitious sustainability goals in key priority areas which enable us to have a lasting positive impact around the world. Our priorities and goals are informed by who we serve, what we do, and how we do it. We work together to foster innovative ideas and pursue longer-term change while striving to create social, environmental, and financial value.

Products marked with this symbol have FSC® certifications from manufacturing facilities around the world:

BRAND

Scott<sup>®</sup>  
brand

## Over **100 years** of hand towel expertise, all in one place.

We promise to deliver you market leading solutions that reduce our environmental impact, and help you reduce yours.

**Kimberly-Clark Professional™** is proud to say that 100% of the fibre used in our Australian made tissue and towel products is sourced from FSC® Certified or FSC® Controlled or Reclaimed Wood sources.

At **Kimberly-Clark Professional™**, we understand our customers and the industries in which they work.

Whatever your need, we've got it covered.

Let us walk you through it.

The superior choice.

Comfort, softness and drying performance.  
The original and still the best.

The practical choice.

Great performance and great cost in use. **Scott®** offers extra value for those high-use areas.

## Folded or rolled?

Typically our hand towels come in these two types.

**Folded Hand Towels** are your best choice for comfort and hygiene.

**Rolled Hand Towels** are best for busy spaces full of busy people.

## Optimum Towel Systems

Optimum Folded Towel system provides a larger paper towel with strength and absorbency.

The majority of KLEENEX® and SCOTT® Optimum Towels are FSC® Certified.

Our high capacity lockable dispensers are easy to use and efficient for your cleaning staff.

# Scott® Rolled Hand Towels System

HYGIENIC & EFFICIENT HAND DRYING SYSTEM

Image shown is for illustration purpose only

Designed to elevate hygiene without compromising on **efficiency**.

## Hygiene & Care

### **Effective hand drying experience**

Airflex™ technology offers better absorbency<sup>1</sup> and remain strong when wet.

### **Hygienic dispensing**

Controlled ONE-sheet dispensing system.

### **Helps reduce cross contamination**

Paper towels can remove up to 77% of bacteria that remains on hands after washing<sup>2</sup>

'No dirt' trap design of dispenser.

## Confidence & Efficiency

### **Trusted brand**

Quality assurance through visible branding<sup>3</sup>.

### **Reduce refill frequency**

High capacity<sup>4</sup> rolled towels.

### **Intuitive design**

Large viewing window on Dispenser for easy refill assessment

Hidden lock on Dispenser to help reduce tampering & misuse.

**Effective hand drying method recommended by WHO\*, supported by Airflex™ technology for better absorbency<sup>5</sup> and help reduce cross contamination.**

1. Compared with conventional hand towels technology in market. 2. University of Westminster, "Changes in the number of different types of bacteria on the hands before and after drying using paper towel, continuous cloth roller towel, warm air dryer and jet air dryer" (2010). 3. KCP Global study done on branded towels in 2018: Brand Differentiation: Scott® Pattern Acceptability Study Report.. 4. Comparing KCP folded towels with KCP Hard rolled towels. 5. Compared with conventional hand towels technology in market.

# The ICON™ Collection

---

Designed around you

Elevating the touch-free experience  
in the washroom

ICON™

# Design that is all about you

Kimberly-Clark Professional™ ICON™ collection, designed by hygiene and innovation experts, with the aim of delivering unmatched confidence in the washroom.

The collection's design and innovation process evolved over various stages, and inspiration was sought from cutting-edge industries and architects, including the automotive sector.

While most dispensers are designed around the paper or soap, ICON™ is designed around the cleaner, facility manager, and most importantly, the consumer. Where style, simplicity, and forward-thinking technology offer a truly human-centric experience.

## Our guiding design principles

The ICON™ collection is our most advanced innovation to-date. The collection was created to our human-centric design principles: it should be intuitive to the user, the design should complement the physical environment, the technology should anticipate the needs of the user, it must deliver consistent performance, show status of operation and provide feedback, visual design and information design must work in unison, communication should be clear and easy to understand, be easy to fault-find, and design must enhance the user experience. These principles are designed to make a difference to how the user experiences ICON™ products.

The ICON™ collection offers three solutions for touchless paper towels, toilet tissue and touchless skincare, which elevate commercial restrooms and the user experience.

## Lifetime warranty

We offer a lifetime warranty on the full ICON™ range, when installed and only used with Kimberly-Clark Professional™ products, which are designed for safe use with our dispensers.

Proudly offered by Kimberly-Clark Professional™.

See page XX for more information on the full Lifetime Warranty.

The ICON™ dispenser collection features elevated hygiene, stylish design, simple operation, and cutting-edge technology, that come together for a seamless user experience in the washroom.

Putting your  
business's needs  
first in navigation

**WYPALL**<sup>®</sup>  
BRAND

# WypAll® Wipers Packaging

## Simple Selection

Our solutions and the value we bring hasn't changed, but the way we've organized our products has. Our portfolio is now aligned to three distinct cleaning solutions to make selection easier and to provide you with task-specific options for every level of clean.

### WypAll® CriticalClean™

#### When your clean is vital!

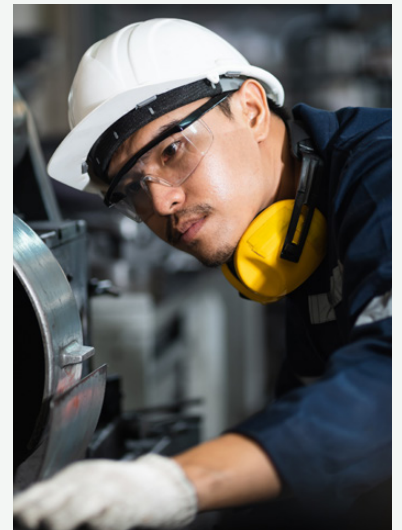

Helps reduce contamination risk with products that help clean, disinfect and sanitise.

### WypAll® GeneralClean™

#### Efficiency you can count on!

Helps create a clean work environment with efficient – light to medium duty – general cleaning solutions.

### WypAll® PowerClean™

#### Tackles the toughest tasks!

Designed to maximise performance while minimising time, effort and product waste.

## WypAll® General Clean™

### Efficiency you can count on

WypAll® GeneralClean™ products help create a clean work environment with efficient light to medium duty general cleaning solutions. Our absorbent products clean up liquids and debris, making work easier and faster.

## WYPALL® REACH™ Centrefeed System

### Features & Benefits

Designed to help prevent transmission of food borne bacteria caused by handling of exposed rolls during food preparation. Good for space restricted environments with a convenient wall mounted bracket for storage. Ideal for wiping up spills and drying hands. Cuts paper waste by 18%<sup>1</sup>.

Reduces paper consumption by 18%<sup>1</sup>.

### Suitable for:

Food and hygiene applications. Service, retail and front of house.

1. Based on the Sapio Research August 2018. Actual consumption may vary depending on different circumstances.

Always read the label and follow the directions for use.

## On our Websites you can

Check out the site for regular product news updates.

Find PDFs of brochures and technical bulletins.

Find information on our environmental practices.

Find other information such as dispenser specifications and diagrams.

\*Our "no quibble" performance guarantee, covering all Goods, assures you of trouble-free performance when used as directed in our recommended systems. The quality and consistency of our products allows us to offer a money back or replacement of stock guarantee for any performance troubles caused by, or defects in, our Goods for a period of 12 months from delivery.

At Kimberly-Clark we are confident that the products we recommend will improve your productivity, control costs, and enhance hygiene.

If, after a 60 day trial (or an agreed time), you find you have spent more on the recommended Kimberly-Clark system than your current safety, washroom, wiping or skincare system, we will reimburse the difference with Kimberly-Clark product (up to a maximum value of \$1000).

Simply contact us to begin your "No Risk Trial" today.

Nothing contained herein shall exclude, restrict or modify our liability under the Australian Consumer Law or any other legislation of a State or Territory of the Commonwealth of Australia or New Zealand.

Product catalogue and claims accurate as at **August 2024**.

What folded towel is that?...

How often are you left confused as to which towel to order so that it fits into the dispenser? This guide will help you identify the Kimberly-Clark product code and name of the towel you need.

Directions for use:

Place a **folded** sample of your current towel from the dispenser against the boxes below. The shape that best fits the towel will determine the towel product you require to ensure your dispenser works effectively. (**NOTE:** actual towel widths can vary by up to 1cm from those noted - this will not effect fit or performance in the dispenser.)
