| Kimberly Clark Global Product Safety Clearance Number  | 1 *5194   |
| Material Reference   | 15381-25-1  |
| Date of the Declaration  | 17/06/2020  |
| Revision 05 Date   | 09/02/2023  |
| Declaration Expiry date  | 31/12/2025  |
| Declaration of Compliance with   |   |
| This product complies with   | (EC) No. 1935/2004 (as amended)   |
| This product complies with   | (EC) No. 2023/2006 (as amended)   |
| This product complies with   | German Recommendation, BfR No. XXI (as amended)   |
| <p>This article, intended to come into contact with food, has been designed and formulated to include only substances and additives that are authorised under German Recommendation BfR No. XXI (with reference to Regulation (EC) No. 10/2011 (as amended)).</p> <p>This article is manufactured according to regulation (EC) No. 2023/2006 (as amended) on good manufacturing practice.</p> <p>All ingredients used in this article do not exceed any legal migration levels based on intended use of the product. Raw materials used in production of the gloves are specified safe for food contact and are procured from an approved Kimberly Clark supplier.</p> <p>Kimberly-Clark has an internal product traceability system in accordance with our Quality Management System.</p> |   |
| Article Material   |   |
| Nitrile rubber   |   |
| Migration Information and Restrictions   |   |
| Compliance with overall migration limit  | Overall migration is below 10 mg/dm <sup>2</sup> under standard testing conditions laid down under German Recommendation, BfR No. XXI.  |
| Specific migration limits (SMLs)   |   |

The determination of specific migration was performed on the finished article. According to the test result, no significant migration could be identified.

| Individual Substances | Specific migration Limits (SMLs) | Test results |
|-----------------------|----------------------------------|--------------|
| Acrylonitrile         | 0.01 mg/kg                       | <0.01 mg/kg  |
| Butadiene             | 0.01 mg/kg                       | <0.01 mg/kg  |

#### Dual Use Substances

This article may contain one or more dual use substances, not expected to migrate at any significant level from the finished product. Please contact Kimberly-Clark if you wish to obtain further compositional information, subject to a non-disclosure agreement.

#### Conditions of use

- Type(s) of food with which it is intended to be put in contact
  - All Foods.
- Time and temperature and storage while in contact with the food
  - Maximum temperature of 40°C (104°F) up to 10 minutes.
- The Ratio of food contact surface area to volume used to establish the compliance of the article
  - The compliance testing was done under conditions set out in German Recommendation, BfR No. XXI (as amended) using a surface to volume (s/v) contact ratio of 8.4 dm<sup>2</sup> / 5 kg.

#### Functional Barrier

There is no functional barrier present.
